Dear Ms. Bastidas:

I am in receipt of the first edition of the Delaware Hispanic, Yellow Pages Directory. I was extremely pleased to receive a copy. I was even more pleased to see that all of your hard work and efforts in making this reference source come to fruition have finally paid off. Please accept my Congratulations in this accomplishment. You should be extremely proud of this success.

Being able to provide Delaware's Hispanic community with this resource of information will surely be a great asset. As I am sure was one of your intents, we can support other Hispanic owned businesses, allowing them to thrive, in turn strengthening and creating stable communities. Another is as people there is a societal bond with other like people, being able to access services from like individuals is a true blessing. One example that comes to mind is physicians. A person will feel more comfortable going to a physician who understands health issues that may affect a certain culture and in some cases it will even reduce or eliminate communication barriers. One suggestion for future consideration is a more comprehensive listing of state services and resources.

Once again please accept my congratulations. If I can be of assistance to you in the future, please do not hesitate to contact me.

Sincerely,

Jaime H. Rivera, MD, FAAP  
Director
